Anchorage, Alaska 99501

NOTICE OF REVIEW OF AN ALASKA POLLUTANT DISCHARGE ELIMINATION SYSTEM (APDES) **PRELIMINARY DRAFT PERMIT** TO DISCHARGE TO WATERS OF THE UNITED STATES

ADEC has prepared an APDES preliminary draft permit for Port of Alaska – Municipal Separate Storm Sewer System (MS4). The Preliminary Draft Permit and associated documents are available to the applicant for a 10-day review. Following the close of the 10-day applicant review period, DEC will prepare a draft permit and fact sheet for a formal 30-day public review period. Public comments will be accepted during the formal 30-day review period. You can access the documents on DEC's Wastewater Discharge Authorization Program webpage at:

Preliminary Draft Permit Review:

Start Date: March 16, 2020

End Date: March 30, 2020

Permit No.: AKS052426 Port of Alaska – Municipal Separate Storm Sewer System (MS4)

Applicant:

Port of Alaska (Port)
2000 Anchorage Port Road
Anchorage, Alaska 99501

Proposed Project and Location:

The Port of Alaska serves as the main port for southcentral Alaska. The commodities include: petroleum, oil and lubricants; general cargo; automobiles; pipe; drilling muds; cement; and other freight. The Port MS4 is a system consisting of 21 catch basins and three outfalls to the tide lands of Cook Inlet and Knik Arm. Location 61.2415, -149.8854. The expected discharge consists of typical urban runoff (sediment, minor amounts of petroleum, some floatable debris). There is no estimate on the volume discharged. The Port of Anchorage operates a Municipal Separate Storm Sewer System. The storm water from the facility is proposed to be discharged to Knik Arm.

Administrative Record:

The APDES preliminary draft permit, fact sheet, and associated documents are available for public review at the ADEC offices located in Anchorage. Please contact the Anchorage office to arrange for hard copies of the documents to be available for your review.
